Data on most sign languages is sparse. We include here five sign languages with no scripture of which we are aware, nor any Christians or missionaries. There likely are others as well. If reference to Deaf as a people group is new to you, read [this article](#) from DOOR International. Please let us know of corrections or additions.

asp	Algerian Sign Language	Algeria	1	Large	0			No data				0
psc	Persian Sign Language	Iran	1	Large	0			No data				0
mzy	Mozambican Sign Language	Mozambique	1	Mid/large	0			No data				0
sdl	Saudi Arabian Sign Language	Saudi Arabia	1	Large	0			No data				0
thm	Tunisian Sign Language	Tunisia	1	Mid/large	0			No data				0

***A note about the population figures:** Those who identify with the group ethnically are included only if they speak this language as their primary language. Estimates have been extrapolated to 2011 from the last date in which there was an actual enumeration by using the growth rate of the country as a whole. Obviously this results in only an approximate size. For that reason, rather than giving precise numbers, we are stating the populations as: **Small**, meaning probably fewer than 10,000; **Small/Mid**, approximately 10 to 50,000; **Mid/Large**, approximately 50 to 100,000; and **Large**, larger than approximately 100,000.
