PUBLISHER'S MEMO

We Have a (Personal) Story to Tell the Nations by Doug Birdsall, LWP co-publisher. The message of Jesus Christ is still most powerfully communicated when one person, whose life has been changed by the gospel, bears witness to another person who is in need of hope and love. Yes, our faith is propositional, historical, social, textual, and contextual, but it is also inescapably personal.

**COTE D’IVOIRE: Persevering Amid Crisis**

Côte d’Ivoire is in a desperate situation after a political impasse has created violence in the streets. The death toll has reached 400 and over 450,000 people have been displaced. **DEMOCRATIC REPUBLIC OF CONGO: MAF Shuttling Vaccine, Humanitarian Workers to Combat Measles Epidemic**

MAF (Mission Aviation Fellowship) is airlifting emergency immunizations and humanitarian health workers into remote areas of Democratic Republic of Congo (DRC) to fight a measles epidemic sweeping the nation. With the logistical support of MAF, the international nonprofit Doctors Without Borders (Médecins Sans Frontières) is at the forefront of combating this highly contagious disease. "Even the few existing roads in DRC are in poor condition from lack of maintenance, and in the rainy season they're totally impassible, hence air travel is the sole means of transport to most of the country," said John Boyd, MAF president and CEO. *(Assist News Service)*

**IRAQ: “Religicide” Exterminating Iraqi Christians**

More Christians have been fleeing Iraq in recent months than ever before. Carl Moeller with Open Doors USA says extremists are calling for the complete extermination of believers in the country. "We've been calling this a 'religicide,' which is the systematic destruction and elimination of a religious group simply for being that religious group. And we see this now unfolding in a very shocking way," says Moeller. The number of Christians in Iraq has dropped dramatically in the last few decades from 850,000 believers in 1991 to 345,000 believers in early 2010. Today, this number is perhaps less than 250,000. *(Mission Network News)*

**KENYA: Kenya Christians and Muslims Debate Hijab in Schools**

Muslim leaders in Kenya are calling for government action on Christian schools that have banned students from wearing the hijab, the head covering traditionally worn by Muslim girls and women. Church leaders have defended the ban, saying teachers have the right to determine dress code in the schools, according to a denomination's religious traditions, discipline, and philosophies. *(Ecumenical News International)*

**MIDDLE EAST: Refugees Find Healthcare, Comfort at Church Clinic**

The recent political and humanitarian turmoil in the Middle East has created a host of needs. As conditions get increasingly worse, many are fleeing. However, one church has become a beacon of hope and health for many who have fled. More than one million Iraqi refugees—Sunnis, Shiites, and Christians—have flooded into this undisclosed nation over the past dozen years. In 1998, the church
asked an American internist and pediatrician to host a monthly free clinic for Christians attending the church. The clinic is now open twice a week. (Mission Network News)

SAUDI ARABIA: Christians in Prison, Beaten
International Christian Concern (ICC) has learned that two Indian Christians working in Saudi Arabia have been arrested in Batha, Riyadh, and sentenced to forty-five days in prison. They were accused of proselytizing. ICC contacts in Saudi Arabia believe they were arrested to keep them from practicing Christianity privately in their home. While in prison awaiting trial, their apartment was ransacked. (Assist News Service)
